

Why participate in open source?

- Open source runs:
 - Android phones
 - Facebook & Twitter servers
 - Tiny connected devices
 - Large Hadron Collider

What can open source do for you?

- For jobs seekers, 86% of tech professionals say open source has advanced their careers
- Open source will help you:
 - Create a portfolio
 - Find mentors
 - Demonstrate collaboration skills
 - Network and find jobs

What is open source?

- License ensures source code is available for
 - distribution
 - modification
- Sharing
- Collaboration
- Communication
- Co-design

Google Summer of Code

- 3 month remote paid internship
- \$6,000 stipend for U.S. interns
- Open to all students 18+
- Multiple projects
- Contact mentors
- Fill out project proposal

- 3 month remote paid internship
- \$5,500 stipend, \$500 travel
- Outreachy expressly invites applications from:
 - Women (cis & trans), trans men, and genderqueer people
 - U.S. residents & nationals who are Black/African American, Hispanic/Latin@, American Indian, Alaska Native, Native Hawaiian, or Pacific Islander
 - Anyone who faces systematic bias or discrimination in the technology industry of their country

Outreachy

- Application: September 19 - November 6
- Accepted Interns announced: November 16
- Internship: December 4 - March 4

Outreachy Application

- Fill out your initial application (5 to 30 minutes)
- Find a project
- Contact mentors & ask lots of questions!
- Make **multiple** contributions
- Fill out a final application

What can I contribute?

- Code
- Tests & test frameworks
- Bug reports
- Answering questions
- Documentation & tutorials
- Graphics
- User Experience (UX)
- Marketing

CC-BY-2.0 Hey Paul Studios
https://www.flickr.com/photos/hey__paul/8292524381/

How do I contribute?

1. Find your passion
2. Find a project associated with your passion
3. Talk to project maintainers
4. Find newcomer-friendly bugs/features
5. Integrate into the community

Community = Collaboration

- Many different collaboration tools for:
 - Source code hosting
 - Short conversations
 - Design discussions
 - Continuous integration
 - Bug tracking
 - Documentation

Community Trust and Social Engineering

- Build a trust relationship with the community
 - Review contributions
 - Ask questions
 - Submit small bug fixes
- Learn community norms
 - Communication style
 - Contribution guidelines
 - Review & testing

Tips for Bug Reporting

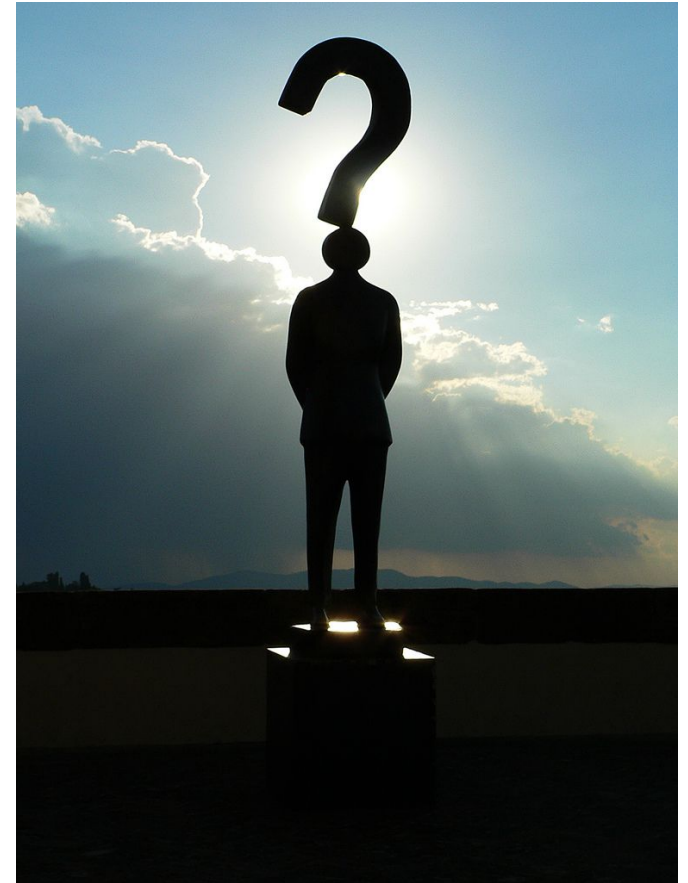

- Always add the code owner
- System information is crucial
- Reproducibility thinking
- Be responsive
- Hold onto hardware

CC-BY Gido

Tips for Asking Questions

- Always ask on public forums
- Ping or Cc the code owner
- Do your research
- Document where you looked
- Be concise and precise

Tips for Code Review

- Keep a list of the feedback
- Address ALL feedback in revisions
- Track changes in your cover letter or github comments on the PR
- If you disagree with a maintainer, back yourself up with facts

Successful On-boarding

- Don't code in a corner
- Do ask for feedback
- Ask lots of questions
- Take small bites
- Keep a list of new terms
- Contribute that list back!
